OC-0401-89

18 JUL 1989

MEMORANDUM FOR: [redacted] STAT
Office of Congressional Affairs

FROM: [redacted] STAT
Director of Communications

SUBJECT: Bills Introduced in the 101st Congress

REFERENCE: Your Memo, dtd 12 Jul 89, Subj: Bills Introduced
in the 101st Congress that May Impact on Agency
Communications Policies

1. I appreciate your alerting us concerning the introduction of HR 1072 to the Congress. It would be useful if you could monitor the bill's progress from time-to-time and provide periodic summaries on actions that occur.

2. We have been following with a great deal of interest current efforts on the part of the Federal Telecommunications Standards Committee (FTSC) Land Mobile Radio (LMR) Subcommittee to develop a new federal standard (Fed Std 1044) for government LMR trunked radio systems, and development of this standard is of critical importance to the furtherance of interoperability among federal radio systems.

[redacted] the outcome of HR 1072 will no doubt have a direct bearing on the FTSC's work in developing the new standards. Please keep us posted.
